Fire from the Rock Sharon Draper 2008-09-18 Sylvia is shocked and confused when she is asked to be one of the first black students to attend Central High School, which is scheduled to be integrated in the fall of 1957, whether people like it or not. Before Sylvia makes her final decision, smoldering racial tension in the town ignites into flame. When the smoke clears, she sees clearly that nothing is going to stop the change from coming. It is up to her generation to make it happen, in as many different ways as there are colors in the world.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer

kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Jewels Of Stringology: Text Algorithms Maxime Crochemore 2002-09-16 The term "stringology" is a popular nickname for text algorithms, or algorithms on strings. This book deals with the most basic algorithms in the area. Most of them can be viewed as "algorithmic jewels" and deserve reader-friendly presentation. One of the main aims of the book is to present several of the most celebrated algorithms in a simple way by omitting obscuring details and separating algorithmic structure from combinatorial theoretical background. The book reflects the relationships between applications of text-algorithmic techniques and the classification of algorithms according to the measures of complexity considered. The text can be viewed as a parade of algorithms in which the main purpose is to discuss the foundations of the algorithms and their interconnections. One can partition the algorithmic problems discussed into practical and theoretical problems. Certainly, string matching and data compression are in the former class, while most problems related to symmetries and repetitions in texts are in the latter. However, all the problems are interesting from an algorithmic point of view and enable the reader to appreciate the importance of combinatorics on words as a tool in the design of efficient text algorithms. In most textbooks on algorithms and data structures, the presentation of efficient algorithms on words is quite short as compared to issues in graph theory, sorting, searching, and some other areas. At the same time, there are many presentations of interesting algorithms on words accessible only in journals and in a form directed mainly at specialists. This book fills the gap in the book literature on algorithms on words, and brings together the many results presently dispersed in the masses of journal articles. The presentation is reader-friendly; many examples and about two hundred figures illustrate nicely the behaviour of otherwise very complex algorithms.

*Cue the Bunny on the Rainbow* Alan Rafkin 1998-11-01 For director Alan Rafkin, television is probably the silliest and most volatile business in the world. Yet whether he was catching a pie in the face or working with an array of eccentric and talented stars, Rafkin was addicted to television from day one. In this autobiography, Rafkin recounts his behind-the-scenes experience working in over 80 different television series. Some of the most beloved sitcoms of all time, such as *The Andy Griffith Show*, *The Dick Van Dyke Show*, *M\*A\*S\*H*, *Murphy Brown*, and *Coach* adorn his directorial resume and illuminate Rafkin's ability to change with the times and persevere in the young world of show business. He recounts how directing strung-out actors and dodging their blows made life on the set a world unto itself. Rafkin further describes how having a good sense of humor helped him survive three divorces and three open-heart surgeries.

Wittgenstein: Mind and Language R. Egidi 2013-03-09 Wittgenstein: Mind and Language brings together a collection of previously unpublished essays which offer a systematic account of Wittgenstein's philosophy of mind and contribute in an absolutely new and original way to illuminating his later conception of human perceptive, emotional and cognitive language from both a theoretical and an historical point of view. The focus is on the fundamental categories of philosophical grammar, on the analysis of intentionality, of belief and Moore's paradox, on certainty and doubt, on will, memory, sensations and emotions, as well as on the theory of aspects and private language and the relationship with relativism and psychologism. In the recent literature there are undoubtedly numerous qualified publications dedicated to the themes of philosophical psychology as they emerge from Wittgenstein's Nachlaß and from his writings on this subject published in

the last decade. This book, however, provides the essential points of reference of Wittgenstein's late treatment of psychological concepts in the context of the general features of his early philosophy of science and language and in the framework of the trends of his time. The book is of special interest to scholars and students, philosophers, linguists, psychologists, sociologists, cognitive scientists, logicians, historians of contemporary philosophy and science.

Jude Kate Morgenroth 2010-05-11 "Listen, you're young. We don't send kids to jail. If you had something to do with this, it's better to tell us. Then we can help you. Maybe it was a friend of yours come to take care of things for you. You've got a nasty bruise there, and your neighbors told us that you tend to get a lot of bruises. We take those things into account, you know. We understand about things like that." "You don't understand anything," Jude said. After Jude watches his drug-dealer father get gunned down at the kitchen table, he's taken from their dangerous neighborhood to a comfortable home, an elite private school, and a mother he doesn't remember. Only fifteen, Jude is under suspicion for his father's murder, but to save his own life, he can't tell the police what he knows. To make things worse, Jude's mother is the district attorney. She can protect him from the police -- but when Jude's classmate overdoses on heroin, Jude is implicated, and his mother decides to prosecute. Jude is determined to clear his name, though he doesn't know that mysteries from his past have yet to be revealed -- secrets that will forever alter the course of his life. Jude's gripping story is at once moving and horrifying as it traces a young man's quest for acceptance and his incredible capacity for hope and resilience. Kate Morgenroth, whose adult novels have been called "nearly impossible to put down" by Time Out New York and "compulsively readable" by Entertainment Weekly, here shows more of her considerable talent.

The Hunger Pains The Harvard Lampoon 2012-02-07 The hilarious instant New York Times bestseller, The Hunger Pains is a loving parody of the dystopian YA novel and film, The Hunger Games. Winning means wealth, fame, and a life of therapy losing means death, but also fame! This is The Hunger Pains. When Kantkiss Neverclean replaces her sister as a contestant on the Hunger Games—the second-highest-rated reality TV show in Peaceland, behind Extreme Home Makeover—she has no idea what to expect. Having lived her entire life in the telemarketing district's worst neighborhood, the Crack, Kantkiss feels unprepared to fight to the death while simultaneously winking and looking adorable for the cameras. But when her survival rests on choosing between the dreamy hunk from home, Carol Handsomestein, or the doughy klutz, Pita Malarkey, Kantkiss discovers that the toughest conflicts may not be found on the battlefield but in her own heart . . . which is unfortunately

on a battlefield.
