

Holocaust Topics For Research Papers

Thank you enormously much for downloading **Holocaust Topics For Research Papers**. Most likely you have knowledge that, people have look numerous times for their favorite books afterward this Holocaust Topics For Research Papers, but stop up in harmful downloads.

Rather than enjoying a good PDF similar to a mug of coffee in the afternoon, then again they juggled behind some harmful virus inside their computer. **Holocaust Topics For Research Papers** is handy in our digital library an online entrance to it is set as public fittingly you can download it instantly. Our digital library saves in compound countries, allowing you to acquire the most less latency period to download any of our books similar to this one. Merely said, the Holocaust Topics For Research Papers is universally compatible when any devices to read.

Holocaust Education Stuart Foster 2020-07-06 Teaching and learning about the Holocaust is central to school curriculums in many parts of the world. As a field for discourse and a body of practice, it is rich, multidimensional and innovative. But the history of the Holocaust is complex and challenging, and can render teaching it a complex and daunting area of work. Drawing on landmark research into teaching practices and students' knowledge in English secondary schools, *Holocaust Education: Contemporary challenges and controversies* provides important knowledge about and insights into classroom teaching and learning. It sheds light on key challenges in Holocaust education, including the impact of misconceptions and misinformation, the dilemmas of using atrocity images in the classroom, and teaching in ethnically diverse environments. Overviews of the most significant debates in Holocaust education provide wider context for the classroom evidence, and contribute to a book that will act as a guide through some of the most vexed areas of Holocaust pedagogy for teachers, teacher educators, researchers and policymakers.

ECSM 2021 8th European Conference on Social Media Dr Christos Karpasitis 2021-07-01 Conference Proceedings of 8th European Conference on Social Media

Israeli Poetry of the Holocaust Yair Mazor 2008 "The fact that the Holocaust poetry discussed here is also Israeli poetry makes the book even more important and relevant. One may cogently argue that the state of Israel was established on the ashes of the Holocaust. If so, the fact that contemporary Israeli poetry is dedicated to the topic of the Holocaust celebrates the victory of humankind over Nazi atrocities. This book should be of interest to students, teachers, and scholars of the Holocaust, modern Hebrew/Israeli poetry, and literature in general."--BOOK JACKET.

Dry Tears Nechama Tec 1984 The author describes how her family escaped the Nazi destruction of the Polish Jewish community by pretending to be Christians and hiding out with Catholic families

Conceptualizing Mass Violence Navras J. Aafreedi 2021-05-14 *Conceptualizing Mass Violence* draws attention to the conspicuous inability to inhibit mass violence in myriads forms and considers the plausible reasons for doing so. Focusing on a postcolonial perspective, the volume seeks to popularize and institutionalize the study of mass violence in South Asia. The essays explore and deliberate upon the varied aspects of mass violence, namely revisionism, reconstruction, atrocities, trauma, memorialization and literature, the need for Holocaust education, and the criticality of dialogue and reconciliation. The language, content, and characteristics of mass violence/genocide explicitly reinforce its aggressive, transmuted, and multifaceted character and the consequent necessity to understand the same in a nuanced manner. The book is an attempt to do so as it takes episodes of mass violence for case study from all inhabited continents, from the twentieth century to the present. The volume studies 'consciously enforced mass violence' through an interdisciplinary approach and suggests that dialogue aimed at reconciliation is perhaps the singular agency via which a solution could be achieved from mass violence in the global context. The volume is essential reading for postgraduate students and scholars from the interdisciplinary fields of Holocaust and Genocide Studies, History, Political Science, Sociology, World History, Human Rights, and Global Studies.

Hitler's Willing Executioners Daniel Jonah Goldhagen 2007-12-18 This groundbreaking international bestseller lays to rest many myths about the Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. *Hitler's Willing Executioners* provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans. Goldhagen reconstructs the climate of "eliminationist anti-Semitism" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular. Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their victims. From mobile killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. "Hitler's Willing Executioner's is an original, indeed brilliant contribution to the...literature on the Holocaust."--New York Review of Books "The most important book ever published about the Holocaust...Eloquently written, meticulously documented, impassioned...A model of moral and scholarly integrity."--Philadelphia Inquirer

Department of the Interior and Related Agencies Appropriations for 2001: Justification of the budget estimates, Indian Health Service United States. Congress. House. Committee on Appropriations. Subcommittee on Department of the Interior and Related Agencies 2000

Different Horrors, Same Hell Myrna Goldenberg 2013-05-15 *Different Horrors, Same Hell* brings together a variety of essays demonstrating the breadth of contributions that feminist theory and gender analysis make to the study of the Holocaust. The collection provides new perspectives on central works of Holocaust scholarship and representation, from the books of Hannah Arendt and Ruth Klöger to films such as Claude Lanzmann's *Shoah* and Steven Spielberg's *Schindler's List*. Interviews with survivors and their descendants draw new attention to the significance of women's roles and family structures during and in the aftermath of the Holocaust, and interviews and archival research reveal the undercurrents of sexual violence within the Final Solution. As Doris Bergen shows in the book's first chapter, the focus on women's and gender issues in this collection "complicates familiar and outworn categories, and humanizes the past in powerful ways."

Holocaust Justice Michael J. Bazyler 2005-04-01 The Holocaust was not only the greatest murder in history; it was also the greatest theft. Historians estimate that the Nazis stole roughly \$230 billion to \$320 billion in assets (figured in today's dollars), from the Jews of Europe. Since the revelations concerning the wartime activities of the Swiss banks first broke in the late 1990s, an ever-widening circle of complicity and wrongdoing against Jews and other victims has emerged in the course of lawsuits waged by American lawyers. These suits involved German corporations, French and Austrian banks, European insurance companies, and double thefts of art—first by the Nazis, and then by museums and private collectors refusing to give them up. All of these injustices have come to light thanks to the American legal system. *Holocaust Justice* is the first book to tell the complete story of the legal campaign, conducted mainly on American soil, to address these injustices. Michael Bazyler, a legal scholar specializing in human rights and international law, takes an in-depth look at the series of lawsuits that gave rise to a coherent campaign to right historical wrongs. Diplomacy, individual pleas for justice by Holocaust survivors and various Jewish organizations for the last fifty years, and even suits in foreign courts, had not worked. It was only with the intervention of the American courts that elderly Holocaust survivors and millions of other wartime victims throughout the world were awarded compensation, and equally important, acknowledgment of the crimes committed against them. The unique features of the American system of justice—which allowed it to handle claims that originated over fifty years ago and in another part of the world—made it the only forum in the world where Holocaust claims could be heard. Without the lawsuits brought by American lawyers, Bazyler asserts, the claims of the elderly survivors and their heirs would continue to be ignored. For the first time in history, European and even American corporations are now being forced to pay restitution for war crimes totaling billions of dollars to Holocaust survivors and other victims. Bazyler deftly tells the unfolding stories: the Swiss banks' attempt to hide dormant bank accounts belonging to Holocaust survivors or heirs of those who perished in the war; German private companies that used slave laborers during World War II—including American subsidiaries in Germany; Italian, Swiss and German insurance

companies that refused to pay on prewar policies; and the legal wrangle going on today in American courts over art looted by the Nazis in wartime Europe. He describes both the human and legal dramas involved in the struggle for restitution, bringing the often-forgotten voices of Holocaust survivors to the forefront. He also addresses the controversial legal and moral issues over Holocaust restitution and the ethical debates over the distribution of funds. With an eye to the future, Bazylar discusses the enduring legacy of Holocaust restitution litigation, which is already being used as a model for obtaining justice for historical wrongs on both the domestic and international stage.

Schindler's List Thomas Keneally 2013-08-06 In remembrance of the 75th anniversary of the liberation of Auschwitz and the Nazi concentration camps, this award-winning, bestselling work of Holocaust fiction, inspiration for the classic film and “masterful account of the growth of the human soul” (Los Angeles Times Book Review), returns with an all-new introduction and beautifully redesigned cover. An “extraordinary” (New York Review of Books) novel based on the true story of how German war profiteer and factory director Oskar Schindler came to save more Jews from the gas chambers than any other single person during World War II. In this milestone of Holocaust literature, Thomas Keneally, author of *The Book of Science and Antiquities* and *The Daughter of Mars*, uses the actual testimony of the Schindlerjuden—Schindler’s Jews—to brilliantly portray the courage and cunning of a good man in the midst of unspeakable evil. “Astounding...in this case the truth is far more powerful than anything the imagination could invent” (Newsweek).

Judaica Reference Sources Charles Cutter 2004 A recipient of the Outstanding Reference Award from the Association of Jewish Librarians in its earlier edition, this updated edition of *Judaica Reference Sources* maintains its editorial excellence while revising and expanding coverage for the new century. Virtually every aspect of Jewish life, knowledge, history, culture, religion, and contemporary issues is covered in this annotated, bibliographic guide. A critical collection development tool for college, university, public school, and synagogue libraries, *Judaica Reference Sources* provides entries for over 1,000 reference works, as well as a selective list of related Web sites, in English, French, German, Yiddish, and Hebrew. Works published since 1970 are emphasized. Unique in providing expert guidance to Judaica material for the librarian, the layperson, the student, and the researcher, this reference guide is a versatile tool that will fulfill your every need for Judaica material.

Toward a Better Balance: Grades K-6 1988

The World of Anne Frank Betty Merti 1998 Provides background information on Anne Frank and her times

Teaching Tough Topics Larry Swartz 2020-01-15 *Teaching Tough Topics* shows teachers how to lead students to become caring citizens as they read and respond to quality children’s literature. It focuses on topics that can be challenging or sensitive, yet are significant in order to build understanding of social justice, diversity, and equity. Racism, Homophobia, Bullying, Religious Intolerance, Poverty, and Physical and Mental Challenges are just some of the themes explored. The book is rooted in the belief that by using picture books, novels, poetry, and nonfiction, teachers can enrich learning with compassion and empathy as students make connections to texts, to others, and to the world.

Personal Names, Hitler, and the Holocaust I. M. Nick 2019-05-13 During the Third Reich, in the name of national security, the Nazis introduced legislation to quickly and easily mark residents with Jewish heritage to expedite their isolation, deportation, and final extermination. Then as now, the tool used for this lethal demarcation was as innocuous as it was ubiquitous: personal names.

The Diary of a Young Girl Anne Frank 2010-09-15 THE DEFINITIVE EDITION • Discovered in the attic in which she spent the last years of her life, Anne Frank’s remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary’s first publication with a new introduction by Nobel Prize-winner Nadia Murad “The single most compelling personal account of the Holocaust ... remains astonishing and excruciating.”—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the “Secret Annex” of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters,

and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.

106-2 Hearings: Department Of The Interior And Related Agencies Appropriations For 2001, Part 4, Justification Of The Budget Estimates 2000

Women Defying Hitler Nathan Stoltzfus 2021-08-12 This timely volume brings together an international team of leading scholars to explore the ways that women responded to situations of immense deprivation, need, and victimization under Hitler's dictatorship. Paying acute attention to the differences that gender made, *Women Defying Hitler* examines the forms of women's defiance, the impact these women had, and the moral and ethical dilemmas they faced. Several essays also address the special problems of the memory and historiography of women's history during World War II, and the book features standpoints of historians as well as the voices of survivors and their descendants. Notably, this book also serves as a guide for human behaviour under extremely difficult conditions. The book is relevant today for challenging discrimination against women and for its nuanced exploration of the conditions minorities face as outspoken protagonists of human rights issues and as resisters of discrimination. From this perspective the voices being empowered in this book are clear examples of the importance of protest by women in forcing a totalitarian regime to pause and reconsider its options for the moment. In revealing so, *Women Defying Hitler* ultimately foregrounds that women rescuers and resisters were and are of great continuing consequence.

Geographies of the Holocaust Anne Kelly Knowles 2014-09-19 "[A] pioneering work . . . Shed[s] light on the historic events surrounding the Holocaust from place, space, and environment-oriented perspectives." —Rudi Hartmann, PhD, Geography and Environmental Sciences, University of Colorado This book explores the geographies of the Holocaust at every scale of human experience, from the European continent to the experiences of individual human bodies. Built on six innovative case studies, it brings together historians and geographers to interrogate the places and spaces of the genocide. The cases encompass the landscapes of particular places (the killing zones in the East, deportations from sites in Italy, the camps of Auschwitz, the ghettos of Budapest) and the intimate spaces of bodies on evacuation marches. *Geographies of the Holocaust* puts forward models and a research agenda for different ways of visualizing and thinking about the Holocaust by examining the spaces and places where it was enacted and experienced. "An excellent collection of scholarship and a model of interdisciplinary collaboration . . . The volume makes a timely contribution to the ongoing emergence of the spatial humanities and will undoubtedly advance scholarly and popular understandings of the Holocaust." —H-HistGeog "An important work . . . and could be required reading in any number of courses on political geography, GIS, critical theory, biopolitics, genocide, and so forth." —Journal of Historical Geography "Both students and researchers will find this work to be immensely informative and innovative . . . Essential." —Choice

The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933-1945 2012-05-04 This volume offers a comprehensive account of how the Nazis conducted the Holocaust throughout the scattered towns and villages of Poland and the Soviet Union. It covers more than 1,150 sites, including both open and closed ghettos. Regional essays outline the patterns of ghettoization in 19 German administrative regions. Each entry discusses key events in the history of the ghetto; living and working conditions; activities of the Jewish Councils; Jewish responses to persecution; demographic changes; and details of the ghetto's liquidation. Personal testimonies help convey the character of each ghetto, while source citations provide a guide to additional information. Documentation of hundreds of smaller sites--previously unknown or overlooked in the historiography of the Holocaust--make this an indispensable reference work on the destroyed Jewish communities of Eastern Europe.

Incident at Vichy Arthur Miller 1994 THE STORY: In the detention room of a Vichy police station in 1942, eight men have been picked up for questioning. As they wait to be called, they wonder why they were chosen. At first, their hopeful guess is that only their identity papers will be

Rescue and Resistance Macmillan Library Reference USA. 1999 Profiles 166 men and women who struggled to save Jews from German aggression during World War II, and includes brief biographies of major Nazi figures

The Protocols of the Learned Elders of Zion Sergei Nilus 2019-02-26 "The Protocols of the Elders of

Zion" is almost certainly fiction, but its impact was not. Originating in Russia, it landed in the English-speaking world where it caused great consternation. Much is made of German anti-semitism, but there was fertile soil for "The Protocols" across Europe and even in America, thanks to Henry Ford and others.

[FDR and the Jews](#) Richard Breitman 2013-03-19 A contentious debate lingers over whether Franklin Delano Roosevelt turned his back on the Jews of Hitler's Europe. FDR and the Jews reveals a concerned leader whose efforts on behalf of Jews were far greater than those of any other world figure but whose moral leadership was tempered by the political realities of depression and war.

[100 Brain-Friendly Lessons for Unforgettable Teaching and Learning \(9-12\)](#) Marcia L. Tate 2019-07-24 Use research- and brain-based teaching to engage students and maximize learning. Lessons should be memorable and engaging. When they are, student achievement increases, behavior problems decrease, and teaching and learning are fun! In 100 Brain-Friendly Lessons for Unforgettable Teaching and Learning 9-12, best-selling author and renowned educator and consultant Marcia Tate takes her bestselling Worksheets Don't Grow Dendrites one step further by providing teachers with ready-to-use lesson plans that take advantage of the way that students really learn. Readers will find 100 cross-curricular sample lessons from each of the four major content areas. Plans designed around the most frequently-taught objectives. Lessons educators can immediately adapt. 20 brain-compatible, research-based instructional strategies. Questions that teachers should ask and answer when planning lessons. Guidance on building relationships with students to maximize learning.

Writing in the Social Studies Aaron Pribble 2021-03-15 Writing in the Social Studies is a practical guide for educators. On each page are strategies, tips, and takeaways for teachers to implement in their classroom, while every chapter concludes with helpful handouts to distribute directly to students. Beginning with a framework and pacing guide, Writing in the Social Studies examines foundational, academic, and real-world writing, concluding with a methodology for grading and a spirited plea for teachers to write themselves. Teachers who believe in teaching "skills through content" finally have a blueprint from which to work. Those who understand it is imperative students graduate with the ability to think critically and express a point of view now have a vehicle with which to achieve their goals. Writing in the Social Studies will be the first book to tackle this crucial yet neglected corner of the curriculum. There is a desperate need for professional development in this area, and therefore also tremendous opportunity. It is a professional imperative that social studies educators teach a variety of writing skills through content. As a result they should have access to a resource which clearly and engagingly shows them how. This is Writing in the Social Studies.

Why Should We Teach about the Holocaust? Jolanta Ambrosewicz-Jacobs 2005

Holocaust and Human Behavior Facing History and Ourselves 2017-03-24 Holocaust and Human Behavior uses readings, primary source material, and short documentary films to examine the challenging history of the Holocaust and prompt reflection on our world today.

March to Freedom Edith Singer 2008 In March to Freedom: A Memoir of the Holocaust, Edith Singer gives a first-hand account of the Holocaust. When she was 16, the Nazis placed Edith and her family in the Auschwitz death camp. This memoir describes daily life in camp: meals, roll call, sleeping, selections, tattoos, sabotage, miracles, and eventually her march to freedom. Amidst unimaginable loss of human rights, Edith maintains her faith, takes risks, and makes sacrifices for others.

[Studies in Contemporary Jewry](#) Peter Y. Medding 1992-12-17 The eighth volume of the acclaimed annual publication of the Institute of Contemporary Jewry at the Hebrew University of Jerusalem, this volume focuses on the history and development of American Jewish life since World War II. Contributions include "A 'Golden Decade' for American Jews, 1945-1955" by Arthur A. Goren, "American Judaism: Changing Patterns in Denominational Self-Definition" by Arnold Eisen, "Value Added: Jews in Postwar American Culture" by Stephen J. Whitfield, "The Postwar Economy of American Jews" by Barry R. Chiswick, "Jewish Migration in Postwar America: The Case of Miami and Los Angeles" by Deborah Dash Moore, and "All in the Family: American Jewish Attachments to Israel" by Chaim Waxman. The volume also contains essays, book reviews, and a list of recent dissertations in the field.

The Yiddish Historians and the Struggle for a Jewish History of the Holocaust Mark L. Smith

2019-12-09 Holocaust history written and researched by the Yiddish scholars who lived it.

Becoming Hitler Thomas Weber 2017-11-09 In *Becoming Hitler*, Thomas Weber continues from where he left off in his previous book, *Hitler's First War*, stripping away the layers of myth and fabrication in Hitler's own tale to tell the real story of Hitler's politicisation and radicalisation in post-First World War Munich. It is the gripping account of how an awkward and unemployed loner with virtually no recognisable leadership qualities and fluctuating political ideas turned into the charismatic, self-assured, virulently anti-Semitic leader with an all-or-nothing approach to politics with whom the world was soon to become tragically familiar. As Weber clearly shows, far from the picture of a fully-formed political leader which Hitler wanted to portray in *Mein Kampf*, his ideas and priorities were still very uncertain and largely undefined in early 1919 - and they continued to shift until 1923.

Holocaust and Genocide Denial Paul Behrens 2017-05-18 This book provides a detailed analysis of one of the most prominent and widespread international phenomena to which criminal justice systems has been applied: the expression of revisionist views relating to mass atrocities and the outright denial of their existence. Denial poses challenges to more than one academic discipline: to historians, the gradual disappearance of the generation of eyewitnesses raises the question of how to keep alive the memory of the events, and the fact that negationism is often offered in the guise of historical 'revisionist scholarship' also means that there is need for the identification of parameters which can be applied to the office of the 'genuine' historian. Legal academics and practitioners as well as political scientists are faced with the difficulty of evaluating methods to deal with denial and must in this regard identify the limits of freedom of speech, but also the need to preserve the rights of victims. Beyond that, the question arises whether the law can ever be an effective option for dealing with revisionist statements and the revisionist movement. In this regard, *Holocaust and Genocide Denial: A Contextual Perspective* breaks new ground: exploring the background of revisionism, the specific methods devised by individual States to counter this phenomenon, and the rationale for their strategies. Bringing together authors whose expertise relates to the history of the Holocaust, genocide studies, international criminal law and social anthropology, the book offers insights into the history of revisionism and its varying contexts, but also provides a thought-provoking engagement with the challenging questions attached to its treatment in law and politics.

Research in Teaching and Learning about the Holocaust Jolanta Ambrosewicz-Jacobs 2017-02-20

Denying the Holocaust Deborah E. Lipstadt 2012-12-18 The denial of the Holocaust has no more credibility than the assertion that the earth is flat. Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy. Sixty years ago, such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews, and that only a few hundred thousand died in the camps from disease; they also argued that the Allied bombings of Dresden and other cities were worse than any Nazi offense, and that the Germans were the "true victims" of World War II. For years, those who made such claims were dismissed as harmless cranks operating on the lunatic fringe. But as time goes on, they have begun to gain a hearing in respectable arenas, and now, in the first full-scale history of Holocaust denial, Deborah Lipstadt shows how—despite tens of thousands of living witnesses and vast amounts of documentary evidence—this irrational idea not only has continued to gain adherents but has become an international movement, with organized chapters, "independent" research centers, and official publications that promote a "revisionist" view of recent history. Lipstadt shows how Holocaust denial thrives in the current atmosphere of value-relativism, and argues that this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge. Thus the movement has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another.

Israeli-Romanian Relations at the End of the Ceausescu Era Yosef Govrin 2014-02-25 Yosef Govrin was the Israeli Ambassador to Romania in the twilight of the communist era. Govrin describes Israeli-Romanian relations as he observed them from 1985 to 1989 after which the leader of Romania was deposed.

Guidelines for Teaching about the Holocaust 1994

Remembering the Past, Educating for the Present and the Future Samuel Totten 2002 This

collection of essays about Holocaust education is by educators involved primarily at the secondary level of schooling (grades 7 to 12). Contributors relate the genesis of their interest in the Holocaust and the evolution of their educative efforts.

[Lessons and Legacies XII](#) Wendy Lower 2017-02-15 *Lessons and Legacies XII* explores new directions in research and teaching in the field of Holocaust studies. The essays in this volume present the most cutting-edge methods and topics shaping Holocaust studies today, from a variety of disciplines: forensics, environmental history, cultural studies, religious studies, labor history, film studies, history of medicine, sociology, pedagogy, and public history. This rich compendium reveals how far Holocaust studies have reached into cultural studies, perpetrator history, and comparative genocide history. Scholars, laypersons, teachers, and the myriad organizations devoted to Holocaust memorialization and education will find these essays useful and illuminating.

Learning from the Germans Susan Neiman 2019-08-27 As an increasingly polarized America fights over the legacy of racism, Susan Neiman, author of the contemporary philosophical classic *Evil in Modern Thought*, asks what we can learn from the Germans about confronting the evils of the past. In the wake of white nationalist attacks, the ongoing debate over reparations, and the controversy surrounding Confederate monuments and the contested memories they evoke, Susan Neiman's *Learning from the Germans* delivers an urgently needed perspective on how a country can come to terms with its historical wrongdoings. Neiman is a white woman who came of age in the civil rights-era South and a Jewish woman who has spent much of her adult life in Berlin. Working from this unique perspective, she combines philosophical reflection, personal stories, and interviews with both Americans and Germans who are grappling with the evils of their own national histories. Through discussions with Germans, including Jan Philipp Reemtsma, who created the breakthrough *Crimes of the Wehrmacht* exhibit, and Friedrich Schorlemmer, the East German dissident preacher, Neiman tells the story of the long and difficult path Germans faced in their effort to atone for the crimes of the Holocaust. In the United States, she interviews James Meredith about his battle for equality in Mississippi and Bryan Stevenson about his monument to the victims of lynching, as well as lesser-known social justice activists in the South, to provide a compelling picture of the work contemporary Americans are doing to confront our violent history. In clear and gripping prose, Neiman urges us to consider the nuanced forms that evil can assume, so that we can recognize and avoid them in the future.
