Why Brands Should Invest In Augmented Reality Marketing Solutions, The Benefits Of Brands Utilizing Augmented Reality Marketing Activities, And How Brands Can Effectively Leverage Augmented Reality Marketing Solutions Dr Harrison Sachs 2020-02-24 This essay sheds light on why brands should invest in augmented reality marketing solutions and also elucidates the benefits of brands utilizing augmented reality marketing activities. Moreover, how brands can effectively leverage augmented reality solutions is delineated in this essay. In the digital era, the evolving marketing landscape is preordained to drastically change overtime as the field of digital marketing is further revolutionized by the ubiquity of advanced technologies, such as augmented reality technologies, virtual reality technologies, algorithms, and smart technologies. Traditional marketing strategies will also be jettisoned or deprioritized by more brands in favor of employing more innovative digital marketing strategies to cultivate increased brand growth, brand equity, brand recognition, and brand loyalty. New innovative

marketing activities, such as the usage of augmented reality marketing, is slated to become prevalent in the coming years through smart technologies, such as smart glasses, smart contact lenses, and smart phones. "Augmented reality is a powerful tool of visualization that conveys ideas through images in the most interactive and engaging ways. It thrills; it exists; and it simply works. Global augmented reality advertisement revenue in 2018 reached \$428 million and is expected to triple by 2021" (Bogomolov, 2019). The future of digital marketing activities will manifest itself into fruition through augmented reality technologies and smart technologies. The benefits of brands leveraging augmented reality marketing activities are multitudinous. Augmented reality marketing is innovative and has a novelty aspect. "Augmented reality marketing stands out among posters, commercials and social media advertisements. Augmented reality has a vibe of futurism, novelty and progress that many people find extremely attractive which renders it more memorable. Using augmented reality in marketing campaigns also adds to your brand image. A company that applies innovative solutions is seen as innovation and up to date. Augmented reality solutions distinguish your company the competitors by creative a positive emotional response and making it memorable" (Bogomolov, 2019). The novelty facet of augmented reality marketing should not be overlooked and it is incumbent for brands to be on the forefront of innovation to win over the customer's attention and generate buzz. Companies with smaller budgets can employ augmented reality marketing activities with ease even without being knowledgeable in coding. "Small business owners can try augmented reality platforms in which they pay for a subscription and create their own augmented reality experience. As a small business owner, you can use these app creator platforms knowing nothing about coding and make simple experiences with a couple of clicks" (Bogomolov, 2019). Companies without coders can utilize platforms, such as BlippAR and Aurasma, to create their own augmented reality content. Companies with coders can utilize software development kits, such as Wikitude, Vuforia, and Kudan, to generate augmented reality content. Considering their affordability, accessibility, and latitude for exercising creativity, augmented reality marketing activities warrant the market dollars. Augmented reality applications can empower businesses and even allow their customers to try on products at home before they buy them since they have unprecedented technological capabilities. Augmented reality technologies can help facilitate connecting a target market to the brand's products far more so than traditional marketing activities. The true merit in augmented reality technologies goes beyond delivering meaningful, interactive, and customized content, it also seamlessly reshapes the physical environment into a virtual environment and offers unique value far beyond the capabilities of other technologies. Brands should devise their own customized augmented reality experiences for customers.

#B2B STRATEGIC PRICING tweet Book01 Bob Bonacorsi 2014-03-19

Strategic pricing is a game-changing process for business-to-business pricing in today's highly competitive global markets.

It continues to have a significant, positive impact on the profitability of companies that have embraced and employed it effectively. It is not unusual for companies to increase their bottom line by two to three points or more within the first two years after implementation. After all, what company doesn't want to add another three hundred thousand dollars to the bottom line for every ten million dollars in sales? And the real win is that these companies are also growing their businesses and improving customer satisfaction at the same time.

#B2B Strategic Pricing tweet Book01: *Game-Changing Pricing Strategies for Manufacturing and Service Companies* aims to provide business managers and marketing executives with that exact same advantage by arming them with the understanding of effective strategic pricing. This book, written by strategic-pricing specialist and ProfitSmart Solutions LLC founder Bob Bonacorsi, was designed to deliver practical yet comprehensive insights into the why, how, and who of successful strategic pricing. It was also written to help managers and marketers effectively implement and integrate the strategic-pricing process into their own organization.

Bob consolidates more than twenty years of marketing, product development, operations management, and business process experience. Having held a variety of leadership positions himself, Bob has gained key insight into the importance of pricing, an insight that many other business leaders have missed out on. In #B2B Strategic Pricing tweet, Bob aims to share that insight.

Readers will discover why pricing is the most important profit driver and how strategic pricing is absolutely critical in optimizing prices. It outlines the basic steps on implementing and integrating strategic pricing into their business and how exactly strategic pricing can increase their customers' satisfaction. It provides the insight to prevent the "cowboying" of prices that increase sales volume but damage profit margins.

This book was written as a concise and easy-to-read marketing book that breaks down the complex ideas behind strategic pricing and it delivers in one straightforward, no-frills, but highly-effective, package.

#B2B STRATEGIC PRICING tweet is part of the THiNKaha series whose slim and handy books contain 140 well thought-out quotes (tweets/ahas). Increase your influence by picking up the THiNKaha app and easily share Bob's quotes on twitter, Facebook, LinkedIn, and Google+.

You Have The Power To Have It All Natalia Furtuna 2021-05-20 *You Have the Power to Have It All* is about myself who experienced several childhood traumas. The Brand Mapping Strategy Karen Leland 2016-06-20 A fundamental paradigm shift has occurred in marketing and branding. Today the most successful CEOs, executives, entrepreneurs and enterprises set their sites on developing a long-term platform instead of a short-term strategy that supports and builds buzz for their personal or business brand. That's really the key to the new business mindset – the recognition that branding and marketing are an ongoing, steady stream of small efforts, not a series of gigantic pushes. Social media, blogging and other business development activities – both online and off – are about the persistent, ongoing process of building a platform, creating credibility and increasing the number of people that you funnel into your potential client and network pipeline. Converting those people into clients or fans may take a month, a year or two years, but the new mindset leads you to strategies that will keep that pipeline full. In short, you need to start a bunch of small fires to keep your brand burning hot. How can today's CEOs, executives and entrepreneurs keep these fires going and powerfully get their messages across, motivate others to action and be authentic – all while simultaneously shepherding initiatives from creation to implementation in high-demand markets? CEO, executive and team branding are key factors that enable effective leaders to achieve peak performance, gain greater influence in their industries and generate increased engagement within their companies. By creating a brand (business or personal) by design instead of default, leaders and companies bring their brand promise into every interaction across the board. A personal, team or business brand is not just a single statement or a clever quip but a multilayered, congruent narrative told across multiple channels – online and off – within the organization and to the business community at large. The power is in knowing how to tell the story. The book will introduce CEOs and executives in Fortune 500 companies and entrepreneurs in SMBs to the SMG Brand Mapping Process®, a process that will guide them in creating personal, team and business brands that work in harmony and parallel with each other.
