Making the Grade William A. Fischel 2009-11-15 A significant factor for many people deciding where to live is the quality of the local school district, with superior schools creating a price premium for housing. The result is a "race to the top," as all school districts attempt to improve their performance in order to attract homebuyers. Given the importance of school districts to the daily lives of children and families, it is surprising that their evolution has not received much attention. In this provocative book, William Fischel argues that the historical development of school districts reflects Americans' desire to make their communities attractive to outsiders. The result has been a standardized, interchangeable system of education not overly demanding for either students or teachers, one that involved parents and local voters in its governance and finance. Innovative in its focus on bottom-up processes generated by individual behaviors rather than top-down decisions by bureaucrats, Making the Grade provides a new perspective on education reform that emphasizes how public schools form the basis for the localized social capital in American towns and cities.

Zero Carbon Car Brian Long 2013-03-01 The Zero Carbon Car examines the hundreds of ways in which car manufacturers are trying to reduce our carbon footprint, and the adaptation of the automotive industry to changing technology in a world where environmental issues are becoming ever more prevalent. The book's in-depth research into green car technology shows that manufacturers make concerted efforts, but sometimes also defeat the gains of their innovation. Topics covered include: What is meant by the terms 'global warming' and 'green', and how these can be defined; An account of the long history of green automotive technology; Alternative fuels, including diesel and hydrogen; Developments in environmentally friendly engine technology; Electric cars; Environmental issues in material usage and car body manufacture. A wide-ranging survey of the hundreds of ways in which car manufacturers are trying to reduce our carbon footprint. Written in an easy-to-understand manner, the book enables the reader to fully understand what is meant by 'global warming'. Examines alternative fuels, material usage and the motive power options available to us. Superbly illustrated with 350 colour photographs. Brian Long is a professional writer and motoring historian with over sixty books to his credit.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or

aspirations of the nation's largest immigrant group, it is also an ominous sign for democratic engagement and global competitiveness for U.S. society as a whole. This timely book argues that this crisis is more aptly characterized as a "Mexican Education Crisis." This book brings together voices that are rarely heard on the same stage—Mexican and U.S. scholars of migration, schooling, and human development—to articulate a new approach to Mexican-American schooling: a bi-national focus that highlights the interpersonal assets of Mexican-origin children. Contributors document the urgency of adopting this approach and provide a framework for crossing national and disciplinary borders to improve scholarship, policy, and practice associated with PreK-12 schooling. Contributors: James D. Bachmeier, Frank D. Bean, Susan K. Brown, Benilde García Cabrero, Cynthia García Coll, Regina Cortina, Ivania de la Cruz, Guadalupe Ruiz Cuéllar, Claudia Galindo, Francisco X. Gaytán, Edmund T. Hamann, Nadia Huq, Mark A. Leach, Gabriela Livas Stein, Carmina Makar, Mary Martinez-Wenzl, Vilma Ortíz, María Guadalupe Pérez Martínez, Leslie Reese, Rosaura Tafoya-Estrada, Edward Telles, Ernesto Treviño, Víctor Zúñiga "This volume is one of a kind. . . . It represents a first step in what we hope will be an ongoing relationship between the institutions and the researchers on both sides of the border who have both an appreciation for the importance of this work and a dedication to improving the educational opportunities of those students that we share in time, space, and culture." —From the Foreword by Patricia Gándara and Eugene García "A fresh, eye-opening array of essays that highlights how the economic and cultural vitality of the U.S. and Mexico is so tightly interwoven in colorful and breathtaking ways. Setting aside strident allegations of how immigrants differ from mainstream society, the authors illustrate our commonalities, how Mexican parents are among the most pro-family, hardest working families in our society. 'Bien educado' is not just metaphor: it animates how immigrant parents raise engaged children, along with a vibrant optimism about getting into America." —Bruce Fuller, Professor, Education & Public Policy, University of California, Berkeley "Regarding Educación is an extraordinary achievement. World-class scholars from both the U.S. and Mexico come together to engage one of the most important developments in education in the 21st century: How do we educate the children we share across transnational borders to thrive in an ever more interconnected, miniaturized, and fragile global world? The answers they provide are timely, riveting, and humane. It is a book every teacher, every policymaker, and every engaged citizen interested in globalization and education must read." —Marcelo M. Suárez-Orozco, Dean and Distinguished Professor of Education, UCLA Graduate School of Education and Information Studies

**The Female Brain** Louann Brizendine, M.D. 2007-08-07 Since Dr. Brizendine wrote *The Female Brain* ten years ago, the response has been overwhelming. This New York Times bestseller has been translated into more than thirty languages, has sold nearly a million copies between editions, and has most recently inspired a romantic comedy starring Whitney Cummings and Sofia Vergara. And its profound scientific understanding of the nature and experience of the female brain continues to guide women as they pass through life stages, to help men better understand the girls and women in their lives, and to illuminate the delicate emotional machinery of a love relationship. Why are women more verbal than men? Why do women remember details of fights that men can't remember at all? Why do women tend to form deeper bonds with their female friends than men do with their male counterparts? These and other questions have stumped both sexes throughout the ages. Now, pioneering neuropsychiatrist Louann Brizendine, M.D., brings together the latest findings to show how the unique structure of the female brain determines how women think, what they value, how they communicate, and who they love. While doing research as a medical student at Yale and then as a resident and faculty member at Harvard, Louann Brizendine discovered that almost all of the clinical data in existence on neurology, psychology, and neurobiology focused exclusively on males. In response to the overwhelming need for information on the female mind, Brizendine established the first clinic in the country to study and treat women's brain function. In *The Female Brain*, Dr. Brizendine distills all her findings and the latest information from the scientific community in a highly accessible book that educates women about their unique brain/body/behavior. The result: women will come away from this book knowing that they have a lean, mean, communicating machine. Men will develop a serious case of brain envy.

**Digital Jihad** Erik Skare 2016-10-15 A new and innovative form of dissent has emerged in response to the Israeli occupation of Palestine. Dubbed "electronic jihad", this approach has seen organized groups of Palestinian hackers make international headlines by breaching the security of such sites as the Tel Aviv Stock Exchange, AVG, Avira, Whatsapp, and BitDefender. Though initially confined to small clandestine groups, "hacktivism" is now increasingly being adopted by militant Palestinian parties, including Hamas and Palestinian Islamic Jihad, who have gone so far as to incorporate hackers into their armed brigades. *Digital Jihad* is the first book to explore this rapidly evolving and still little understood aspect of the

Palestinian resistance movement. Drawing on extensive interviews with hackers and other activists, it provides a unique and fascinating new perspective on the Palestinian struggle.

**The Seat of the Antichrist Erika Grey 2010-02-15** The Seat of The Antichrist: Bible Prophecy and The European Union identifies the European Union as the final world empire and explains what Bible Prophecy predicts will occur in the end times. The reader discovers the relationship between Bible Prophecy, the European Union and today's current affairs. The Seat of the Antichrist details the European Union's history and institutional structure and shows how it aligns with Bible Prophecy. Bible Prophecy comprises one third of the Bible. The Bible's last book, The Revelation, predicts the events leading to the end of the world. It provides the details for the Tribulation, which occur during a seven year period of wars, plagues, earthquakes and calamities, which end in the battle of Armageddon. Part of the earth's judgments happen through a leader who rises to power from the final world empire predicted in Bible Prophecy. Evangelical Christians customarily refer to this leader as The Antichrist. The Seat of the Antichrist is the first book dealing with Bible Prophecy, which shows prophecy's relation in the present geopolitical framework and in doing so dismisses end-time conspiracy theories, which Bible Prophecy works often rely on. No book dealing with Bible Prophecy provides such in-depth analysis and extensive research as The Seat of the Antichrist: Bible Prophecy and The European Union, which presents the reader with a gripping, riveting expose.

**The Automotive Industry and European Integration A. J. Jacobs 2019-08-07** This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

**Prosecutor's Manual for Arrest, Search and Seizure 3rd Edition John M. Castellano 2021-10-15** The ideal roadmap for defense lawyers and prosecutors, John M. Castellano has built on the fine works of the original authors of this book, James A. Adams and Daniel D. Blinks who appreciate the succinct analysis necessary to canvass the often tangled landscape of Fourth Amendment law. Their pragmatic approach has created a balanced, sound and comprehensive one-volume survey of arrest, search and seizure issues. The Third edition now features all decisions by the Supreme Court Fourth Amendment cases through June 2015 as well as significant and helpful circuit court decisions on a variety of topics. It includes a number of other new, expanded, or refined sections as well which include application for orders to intercept; bodily intrusions, emergency searches, and workplace searches. **Detroit's Michigan Central Station Kelli B. Kavanaugh 2001** In 1913, the Michigan Central Station opened its majestic entrances to the people of Detroit. Designed by Warren & Wetmore and Reed & Stern, the firms also noted as the architects of the Grand Central Station in New York City, the depot was a marvel of grandeur and comfort for the traveler lucky enough to utilize its facilities. Soldiers went to war, families both separated and rejoined, and folks looking for an honest living in the Motor City all walked the Michigan Central's elegant corridors. Since the last train pulled away from the station in 1988, the structure has fallen prey to rapidly paced deterioration. Detroit's Michigan Central Station captures the glory of the Michigan Central and its environs. Using photographs from the Burton Historical Collection, as well as private collections, the book illustrates the use of the Michigan Central Station by a city whose story dramatically parallels that of this magnificent structure. The book also includes imagined futures of the station from some of the many people who have been inspired by the magic this grand building continues to exude.
